

# PAINWISE FOUNDATIONS 2019

## ADDRESSING THE NEEDS OF THE COMMUNITY AND PHARMACY TO PROVIDE A BETTER FUTURE

### BACKGROUND

#### The need for better pain management Did you know?

- 1 in 5 Australians are affected by persistent pain
- Pain is a \$34b industry; the third most costly health care burden in Australia
- Limited community support available for persistent pain sufferers

### THE 'THREE PILLARS' FOUNDATIONS PROGRAM

#### The one day training course for pharmacists will cover:

- The latest information on acute and persistent pain, musculoskeletal pain, neuropathic pain and opioid dependency
- Managing challenging conversations with up to date communication techniques
- Evidence based alternative treatments for pain management
- Online access to implementation awareness tools that will help you to build and enhance the commercial benefits of delivering a pain management professional service.

### THE BENEFITS

#### In association with Arrow, the PainWISE Team will assist participating pharmacies to:

- Transform good patient service into great patient experiences
- Deliver better health outcomes
- Help patients make better choices to manage their pain
- Earn CPD Points

## MEET THE FACILITATORS

**JOYCE MCSWAN**  
*Program Developer*

Joyce is a clinical pharmacist with a special interest in treating persistent pain. The recipient of numerous awards including the “PSA QUM Pain management Award” and “Innovative Pharmacist of the Year 2013”. Joyce has innovated multiple pain programs in primary health care, private hospitals and within the pharmacy industry, nationwide.

### Award Winning Clinical Presenters -

All PainWISE Programs are presented by an interdisciplinary team of award winning clinical presenters including pharmacists, psychologists and physiotherapists. The PainWISE Foundations program will be joined by a clinical psychologist specialising in pain management

## PARTICIPANT FEEDBACK

“ The PainWISE training day was excellent. Totally inspiring, evidence based, with a practical focus, and even better, an acceptable business outcome to go with all that! ”

*Amanda Galbraith , Capital Chemist Kingston (ACT)*
